**Von John Herd Thompson : Canada and the United States: Ambivalent Allies (The United States and the Americas)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Canada and the United States: Ambivalent Allies (The United States and the Americas):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An Excellent Introduction to Canadian-American RelationsVon S. ShewmakeAs the authors point out, Americans rarely

think about Canada. Many Canadian professors have made a career about Canada-US relations but few Americans have. This book provides an excellent introduction to this subject. A large part of the book is devoted to history but there are parts about current policy dilemmas and issues. It should be essential to anyone trying to understand NAFTA.

**Kurzbeschreibung**The United States and Canada have the worlds largest trading relationship and the longest shared border. Spanning the period from the American Revolution to post-9/11 debates over shared security, Canada and the United States offers a current, thoughtful assessment of relations between the two countries. Distilling a mass of detail concerning cultural, economic, and political developments of mutual importance over more than two centuries, this survey enables readers to grasp quickly the essence of the shared experience of these two countries. This edition of Canada and the United States has been extensively rewritten and updated throughout to reflect new scholarly arguments, emphases, and discoveries. In addition, there is new material on such topics as energy, the environment, cultural and economic integration, the wars in Iraq and Afghanistan, border security, missile defense, and the second administration of George W. Bush.
