Kurzbeschreibung The present study is an attempt to place in historical perspective the relationship between early capitalism as exemplified by Great Britain, and the Negro slave trade, Negro slavery and the general colonial trade of the seventeenth and eighteenth centuries. It is strictly an economic study of the role of Negro slavery and the slave trade in providing the capital which financed the Industrial Revolution in England and of mature industrial capitalism in destroying the slave system. Buchrckseite Eric Williams's *Capitalism Slavery* became the foundation for many future studies of imperialism and economic development. Binding an economic view of history with strong moral argument, Williams's study of the role of slavery in financing the INDUSTRIAL REVOLUTION REFUTED TRADITIONAL IDEAS OF ECONOMIC AND MORAL PROGRESS AND FIRMLY ESTABLISHED THE CENTRALITY OF THE African slave trade in European economic development. He also showed that mature industrial capitalism in turn helped destroy the slave system.
