IntensivVon Carsten WehrsIch habe mit Ron Parker Ende September 2013 zufällig in New York gesprochen. Seine Erzählungen (im Gespräch, wie auch im Buch) waren wirklich sehr intensiv!Er beschreibt nicht nur seine Erlebnisse vom 11. September 2001 und danach; er gibt auch Einblicke in sein (Feuerwehr-)Leben. Dadurch wird dieses Buch sehr lebendig und mitreißend. Einmal angefangen zu lesen und man legt es nicht mehr so schnell aus der Hand.Er

benutzt ab und zu mal Redewendungen und Wörter die ich jetzt so nicht kannte. Durch den Kontext (oder zur Not einem Wörterbuch/Übersetzer) klappt sich das aber eigentlich und man kann es auch als nicht "Perfekt-Englisch-Sprechender-Mensch" recht gut lesen. Hin und wieder springt er auch in den Zeilen was mich teilweise verwirrt hat und ich die Stelle dann noch einmal lesen musste. Vielleicht kommt ja mal irgendwann eine deutsche Übersetzung raus. Das wäre wünschenswert da diese Autobiografie echt interessant ist! Ich bin froh und stolz eine signierte Ausgabe zu besitzen: "Firefighter -Brothers forever- Never forget 9/11" Eine absolute Kaufempfehlung! Don't miss it...!

Kurzbeschreibung "When I got tired, I remembered the cries I had heard from the first person I helped free from the concrete prison. I didn't want someone else's concrete prison to become their concrete grave, so I had to keep moving." Crawl through 20 stories of mangled steel, clouds of smoke and ash with Ron Parker in attempt to rescue thousands of civilians and first responders trapped beneath the fallen twin towers. Stand beside him while victims are recovered from the wreckage of the September 11th attacks. Fight alongside him when he is falsely accused of stealing from widows and orphans. His only choices are to be a chief, a pawn or a warrior, because being a victim is never an option. Walk with Ron as he uncovers a fresh foothold on the trek to find closure and move forward after the impossible parts of life. Learn why we don't have to choose to be victims. We can choose to be a chief who leads the way towards a cause, a pawn who follows a chief to get the work done or a warrior who actively defends a cause.
