Absolutely top notch thriller Von Dave Massie I have read 3 of Hyde's books: Formosa Straights, China Lake, and The Red Fox. I think he is, either, the best or second best American thriller/spy story writer currently working. (His only competition is Alan Furst) I also think Formosa Straights is his best book. He is a wonderful writer, has complex plots,

and is able to communicate a sense of place that is hypnotic. I only hope he publishes another book soon!

Kurzbeschreibung Sidewinder the deadly rattlesnake of the American Southwest gave its name to the first heat-seeking missile in the world, the greatest achievement of the top-secret US Naval Weapons Center in China Lake, California. But in the early Sixties, Sidewinder had been betrayed to the Russians and David Harper, a brilliant young British scientist, was suspected of the leak suspicions that destroyed his career and his marriage. More than twenty years later, Jack Tannis, the man who led the original enquiry, receives a mysterious telephone call that revives the ghosts of the past. Then the discovery of a dead body on the perimeter of the base leads Tannis reluctantly into a new investigation. And for David it seems that all that he loves may be in danger again. Now in the burning emptiness of the Mojave desert, both men desperately try to solve a mystery that threatens once more a mystery whose terrible truths lie coiled and hidden in the vast wastes of China Lake. A novel of military secrets, personal betrayals and mystical solutions, China Lake is an electrifying story, a thriller of the very first order. One of the brightest, freshest new voices to appear in the international thriller business in a long time. USA TODAY Anthony Hyde was born in Ottawa, Canada, in 1946, to a book-loving family, and spent a number of years as a political science student and activist before turning his hand to writing. His first novel, *The Red Fox* (1985), became an instant bestseller worldwide. Endeavour Press is the UK's leading independent digital publisher.
