Von John Minnery : CIA Catalog Of Clandestine Weapons, Tools, And Gadgets before purchasing it in order to gage whether or not it would be worth my time, and all praised CIA Catalog Of Clandestine Weapons, Tools, And Gadgets:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not bad...good for gadget freaksVon Ein KundeCovering a range of interesting gadgets, techniques and gizmos for the spy trade, this book does a decent job giving up-to-date coverage of some of the ways the CIA and other spy agencies have collected information over the years. It is filled with good pictures and descriptions, but short, I think on some of the

newer items, which, I am guessing remain classified.

Kurzbeschreibung Basic to the CIA agent's mission are the ever-present threats of discovery and apprehension. Now, the author of the infamous How to Kill series, gives you an exclusive inside look at CIA's intriguing collection of concealable guns, saws, knives, daggers and more designed to help agents out of tight spots.
