Von Sofia Hauschildt : CMS Made Simple 1.6: Beginner's Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised CMS Made Simple 1.6: Beginner's Guide:

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Ausgezeichnet und lehrreichVon Reinhard MohrIch arbeite schon seit Jahren mit CMS made simple und finde es immer noch fantastisch. Auch verglichen mit den "groen" Contentmanagementsystemen wie Drupal oder Typo 3 schneidet CMSMS hervorragend ab.Und jetzt bestellte ich dieses Buch und fand es genauso wie CMSms: Umfassend und doch leicht zu verstehend. Es schliet fr mich einige der Lcken, die mir noch in der Nutzung geblieben waren. Und es zeigt auch die wirkliche Leistungs- und Entwicklungsfhigkeit des Systems auf.Auch im tglichen Einsatz ist es hilfreich als Nachschlagewerk: Was konnte man doch gleich wieder an dieser Stelle noch tun... '? Was war Smarty-Logik... '? Wie setzt man dieses Modul gut ein... '?Sofia Hauschildt schafft es auch, selbst dem erfahrenen NUTzer noch eine Menge Einblicke zu geben. Und vor allem erweitert und prziert dieses Buch auch die offiziellen Online-Hilfsquellen (Forum und CMS-Wiki) und spart einem so stundenlang Zeit, die man sonst bei der Informationssuche

und bei der Problemlösung aufbringen müsste. Ganz toll und hilfreich! Reinhard Mohr

Kurzbeschreibung This is a practical, hands-on book based around a case study website, which you will build in this easy-to-understand workshop by using CMS Made Simple. The case study grows chapter by chapter, from CMS installation to the finished website. It provides clear instructions and detailed screenshots, so you can see exactly what to do at each step of the build. When you have completed the case study, you will have the knowledge and confidence to build a website with rich functionality and individual design that is optimized for search engines and can be handed over to the customer. This book is perfect for newcomers as well as webmasters who are looking for an introduction to building powerful and professional websites with a content management system. Basic knowledge of HTML and CSS is the only requirement. The workshop covers all aspects of web publishing and is aimed for web designers, web developers, editors, and web managers.

ber den Autor und weitere Mitwirkende Sofia Hauschildt is a tutor for web mastering and web development, who started designing and developing professional websites in 1995, just before her graduation in computer science. With experience as a Data Warehouse developer and ERP consultant she became a self-employed tutor. During her career she has been contracted by IT and management academies, the German army, several city administrations, and international companies like Siemens. Her work as a tutor is always focused on practical training combined with a theoretical background in order to get fast and handy results. In her publications she shares not only solid knowledge but her personal experience and shows a simple and powerful way of creating websites for ambitious beginners. Building websites is an amazing chance to communicate with the whole world and to discover it as well.
