Kurzbeschreibung Captain Charles Scheffel is one of 12 persons whose war experiences were featured in the History Channel production, WWII IN HD, a 10-hour color series narrated by Gary Sinise. CRACK! AND THUMP is Scheffel's chilling account of ground combat of a young company-grade officer who fought with the 9th Infantry Division in North Africa, Sicily, France, Belgium, and Germany. Scheffel vividly recalls the terror, mind-numbing fatigue, raw emotions, and horrific conditions fighting men endured to achieve victory in World War II.
