Multidimensional AbundanceVon Stella Carrier"Creating Money: Attracting Abundance" by Sanaya RomanDuane Packer is a very good guide on connecting with the vast resources of prosperity available in the universe. This book is also great because it is helpful to many people from various backgrounds and all walks of life. What I enjoy about "Creating Money" is that there are many facets and dimensions of abundance and prosperity covered. What I mean by this is that this book also contains ideas on increasing one's ability to listen to inner guidance and develop unlimited thinking. The following is a sampling of what is covered in this phenomenal title:Following Your Inner Guidance(Chapter 5): This chapter covers information on the several kinds of inner guidance. There is also details available on ways to stimulate an intuition increase. The statements on the benefits of taking quiet time to reflect were very persuasive.Miracles (Chapter 11): I found it wonderful to see that the chapter begins with the how and why miracles are created from love. Creative information is available in this section regarding tips to increase the miracles in all areas of one's life.Believing In Yourself (Chapter 15): There is insightful details included as to why someone may encounter objections from those around them as they choose the path that is actually the closest to their joy. The detail that was very informative to me from this chapter is that having someone opposing you can be a blessing in disguise. I love that the authors emphasized that it is essential to avoid letting other people's images of what they see you doing influence your own personal dreams/ambitions. In addition, the authors also emphasize that in order to joyfully change your life, the belief that something better exists must be present. There are many uplifting and inspiring affirmations available in "Creating Money". My two favorite affirmations from this book are: 1) All my experiences are opportunities to gain more power, clarity, and vision (pg. 110). 2) I serve others to the best of my ability in all I say and do (pg. 233).Creating Money: Attracting Abundance by Sanaya Roman and Duane Packer is written in the same type of loving and creative energy of the "Living with Joy" book. This guide is a healing and unique to get if you are looking for something that contains a combination of ways to increase joy and a higher receptivity to good luck.0 von 0 Kunden fanden die folgende Rezension hilfreich. Could be better written but worth reading anyway!Von FranciscaI am going through a especially difficult in my life and reading keep me inspired not to give up my fight for justice and that is how I came to read this book after reading another of Sanaya Roman's books previously, which I actually found better than this one, although on a different subject. I found this book contains a lot of repetitions but I find the critics that this book is aimed at people owning business quite not fair. I was half way the book when I found the first references to owning your own business, so this book is really aiming at everybody. There also a lot of good affirmations. There are also exercises you can fill in which make you think about what you really want. I have to say that I had a bit of difficult getting my head around manifesting the essence of what one wants to attract. There are a number of stories which illustrate what the authors want to convey and they are really interesting to read. They also urge you to start living your life today, not wait for when you get what you want and I have put that into practice. One of my wishes is to touch people's souls and to make a difference in their lives. At this time I have no money to spare but I try to give a little something if someone in the street is singing or playing a particularly nice song and with that I don't mean just money but also a smile and an encouraging word, especially now that it is almost Christmas but something else happened a few days ago, which really showed me that you don't need to have much yourself to make a difference in someone else's life: The choir I sing with sang in Newport (outside of Cardiff), a little while ago to aid a charity. The charity was there selling raffles and although I am not at all into all these modern, institutionalized charities I did buy two tickets and they took my telephone number so that they could call me in case I won a prize, as we couldn't wait around all day. A few days later, out of the blue they phoned me and yes, I had won a haircut in a hairdresser in Newport, which is too far away for me to go to but then I had this idea why wouldn't I give it to a lady who can't afford to have her hair nicely cut in time for Christmas? That might put a smile on to someone's face.. So I called the hairdresser and suggested they find someone, which they promised to do. That goes to show that if your mindset changes, even if you don't have much to give you will always find a way to make someone else happy!Another thing this book and others stress out is the need to follow your passions. Don't just do a job, work at whatever you are passionate about, even if right now it seems that you will never make a living doing it because you eventually will and will be a lot happier in the process, not to talk better at what you do. Another thought provoking bit of text is: enjoy overcoming the obstacles because moving through them add to your sense of accomplishment when you get what you want! Maybe life many times puts us on the spot to make sure that we deserve what we are about to get and maybe it even gives us much more than we asked because we stuck to our goals, no matter how difficult the journey was? I try to think about that every time I feel that I don't have what it takes to get through the very difficult journey I have been going through. So all in all this is a book worth reading and it is surely not only about money but about becoming a better person, I just wish that it was better written!0 von 0 Kunden fanden die folgende Rezension hilfreich. Forward from Marc Allen, author, publisher: "Since this book was first published, hundreds of people have written letters and testimonials telling us how using the processes, exercises, and affirmations in this book have brought them prosperity and changed their lives. The processes taught in this book have been used by people from all walks of life to improve their financial condition, move out of lack and limitation, overcome obstacles, and become magnetic to abundance. It has been recommended by businesses to their employees, by marketing departments to their sales forces, and by people all over the world to their families, friends, students, and clients. This powerful book shows you the way not only to abundance but to something far more important: a life well lived, full of joy and satisfaction. Marc Allen, Publisher, New World Library, and author of *The Millionaire Course* *Pressestimmen* Network Quarterly, October 1997 Money is one form of abundance that occupies most people's minds at one time or another. When I read the preface, I discovered this book included channeled information. After reading it, I don't care who wrote it. It's good. It offers a common-sense, spiritualistic approach to creating what you want in your life. *Aquarius, Sign of the Times*, February 1998 If you were to ask a group of fifty people if they would like to be wealthy, chances are good that all would say yes. If you asked them what they'd do with the money, some would say they'd quit their jobs, travel or buy a bigger, better house. Still, many would say they'd change careers, do the work they've always wanted to do. It's a fact that a greater percentage of the planet's population is working at ill-fitted jobs, and, they believe, ill-fated. But the truth is what you have and where you are today are the results of all the choices and decisions you have made, and many have been based on past programming rather than on the new unlimited thinking, as taken up in Sanaya Roman and Duane Packer's book *Creating Money: Keys to Abundance*. This book, filled with a wealth of advice channeled to the authors from their spirit guides, was first published ten years ago, and applies more than ever today. *The New Times*, March 1989 This book is about more than creating money, although that is the primary focus. Whether we like it or not, the Earth plane still uses money as the system of exchange of energy. Many people within the New Age have wonderful ideas they would like to implement but which are often foiled from the beginning partially due to lack of funding. The approach used in *Creating Money* is that in order to manifest many of our visions and dreams, money is needed and learning how to have money and use it to higher purposes is a good goal to attain. John Harricharan for *Body Mind Spirit* magazine, September/October 1988 Many books have been written about money and how to get it, but most times they are filled with impractical and theoretical ramblings. *Creating Money* by Sanaya Roman and Duane Packer is a refreshing change. The authors have created an extremely practical and useful book to assist anyone who has money problems. The book is divided into four sections, each dealing with certain aspects of the money problem, but all four blend together in such a way as to give the reader

one of the most practical guides for becoming wealthy. Roman and Packer do not preach, but gently lead you through a myriad of universal truths that impact directly on your pocket book or bank account. A series of practice exercises combined with a number of worksheets (which the authors call playsheets) assist the reader in following the true essence of the manuscript and, at the same time, serve as a summary for some of the more important areas of focus. For all those who have ever had problems with money, for those who are struggling to make a living, or for those who simply would like to improve their quality of life, this book is a candidate for the Required Reading List. It should be re-read many times and occupy a prominent place on your bookshelf.
