Von Ian M. Ferguson : Cristal's Revenge (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cristal's Revenge (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. A must read Von Christina I don't want to discuss the plot I hate it when reviews give half the book away. I will say that this

is the best book so far by up and coming author Ian M. Ferguson. It is well thought out and written. It's an intelligent book that keeps you on the edge of your seat, wanting to turn the pages. It is thought provoking and you will find yourself thinking about it even once you are done reading. I am looking forward to the sequel Hint, hint, Mr. Ferguson.

KurzbeschreibungCristals Revenge is a contemporary thriller revolving around Al Qaedas attempt to strike once more at the heart of the "Great Satan" - United States of America. But this time they have a Nuclear Weapon. Their mistake was that they really upset Cristal five years earlier and she has not forgotten nor forgiven. The seemingly meek and mild Cristal, mother of 2-year old Tiffany and news producer at a Cincinnati TV station, is determined to stop them and visit revenge on their leader, right after she escapes her kidnappers, dumps her husband and kills her ex-lover.
