Von Ian Lunn : CSS3 Foundations (Treehouse Book Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised CSS3 Foundations (Treehouse Book Series):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Perfekt fr Einstieg, Auffrischung und schnelle ReferenzVon KevinIch habe mir dieses Buch als KindleEdition gekauft, um einen schnellen berblick ber die Neuerungen von CSS3 zu bekommen. Dazu ist es sehr gut geeignet, da gezielt auf die Neuerungen im Vergleich zu lteren CSS - Versionen eingegangen wird. Ebenfalls gut ist die Information darber welcher Browser welche Teile aus CSS3 untersttzt und welcher nicht, inkl. Workarounds. ber Kindle konnte ich mir leicht Notizen machen und diese spter durchsuchen fr schnellere Referenz.Der Stil eine eigene Website im Verlauf des Buches durchzustylen isf nach meine Geschmack sehr gut, wengleich man dennoch Kapitel berspringen kann. Der Code fr jedes Kapitel ist verfgbar, und man kann jederzeit einsteigen, ohne die vorigen Kapitel bearbeitet zu haben.Ich habe mir dieses Buch zusammen mit "HTML5 Foundations" aus dem gleichen Verlag gekauft. Sie bauen super aufeinander auf und ergnzen sich prima.Ich kann diese Kombination sehr empfehlen, aber auch einzeln sehr gut

gemacht.
