A moving story about growing up and dealing with life Von ilovebooks I would totally recommend this book for anyone who is interested in an authentic story about adventure and friendship. The author is incredibly talented at taking

different characters and their lives into a perspective and braiding them together. The best part is that the story is narrated from multiple perspectives and makes you feel like you are living in their world, being a part of their thoughts and feelings. Days after I completed this book the characters and essence of his story have stayed with me. The message is really inspiring, it teaches about guilt leading to forgiveness and reveals how hard, important necessary it truly is. Such a good read!

Kurzbeschreibung Will guilt fracture a friendship? Ronin is a risk-taker. Gunner is a teddy bear. Their friendship is forged on the football field and in the forests, through pranks and predicaments. Nothing can separate these die-hard buddies. Eager to take on any challenge, the seventeen-year-olds handcraft a canoe and launch their senior summer. When they attempt to rescue a girl floating toward a treacherous waterfall, the lighthearted trip ends in tragedy. The survivors somehow carry on, haunted by guilt. But will they learn to choose forgiveness before another life is lost?
