Excellent, authentic non-fictional story book on Indian lifeVon Ein KundeI found this book extremely interesting, as it is written by Mary Henderson Eastman, who actually got to know the Native Americans who lived near Fort Snelling,

where Mary's Husband, Seth Eastman, was stationed. I was completely engulfed by her stories, and sometimes felt as if I were right there with her, experiencing first hand what these Native Americans were like and how they lived. I applaud the Afton Historical Society Press for their efforts in preserving our country's history, and for putting a small part of that history in such a beautiful book--lovely paper, and a stunning dust jacket. Anyone who enjoys history, or just a good story, should DEFINITELY buy this book!!

Kurzbeschreibung Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
