Von Terry C. Johnston : Dance on the Wind: A Novel (Titus Bass) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dance on the Wind: A Novel (Titus Bass):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. It takes the circle!Von Concerned ParentThis book by Terry Johnston is like all his others (and I have them all), excellent!

Terry has a unique gift in his telling of the history of the mountain men of the Rocky Mountains. He brings them to life in a remarkably vivid fashion and his readers leave each book with a sense of awe and anxiety in waiting for his next publication to hit the shelves. "Dance on the Wind" is well worth your time and as is typical of a Johnston novel, you'll have a hard time waitin' for the next one. Read it!

IckVon Ein KundeSorry to disagree with you guys...but I think this book is terrible. The writing is cliché and ungrammatical, and in some cases dumb ("he had to admit he cared for the bony whore"??) the storyline was contrived and unrealistic, and I was NOT interested in the naive character of Titus Bass.

KurzbeschreibungSixteen-year-old Titus Bass fears one fate more than any other: never to experience the great wilderness or the wildness inside himself. So late one night he snatches a squirrel gun and a handful of biscuits, flees into the woods, and doesn't look back. From Louisville past the Chickasaw bluffs and the Natchez Trace all the way to New Orleans, he plunges into the rough-and-tumble life along the banks of the Mississippi: a volatile, violent country of boatmen and river bandits, knife fights and Indian raids, strong liquor and stronger women. Yet beyond the great river stretches the vast, unexplored expanse of the Great Plains. And it is here that young Titus will seek his future, and risk everything to seize it.
From the Paperback edition.
From BooklistOne of frontier novelist Johnston's most popular characters has been Titus Bass, the protagonist of a trilogy that began with *Carry the Wind* (1982). Here, in the first installment of a new series, we move backward in time to Bass' youth. It's 1810, and young Titus feels the age-old pressure to honor the family vocation--in his case, farming--but the prospect of life behind a mule makes the young man queasy. Finally, faced with an angry father who can't tolerate his son's dreamin' ways, the 17-year-old Titus sets out for the horizon. After joining up with a group of river rats, Titus quickly finds the adventure he seeks but along with it comes the sobering realization that on the frontier your friends can get hurt and even die. Johnston is a deservedly popular western author whose appeal lies not so much in the adventures he dramatizes as in the depth of his characters. They love, grieve, laugh, and feel guilt, anger, and jealousy. They're real people, not just providers of vicarious thrills.
