KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Derzeit das einzige Buch zu elastixVon M24124...aber so hab ich schon lange nicht mehr gelacht. Auf vielen Seiten lichtet sich der Author vor seinem Computer sitzend ab, oder er zeigt ein Bild, wo man zB in ein Feld ein Passwort eintippen muss und OK klicken - auf einer ganzen Seite !Da muss ich sagen, wer das nicht ohne Foto schafft, braucht eigentlich gar nicht weiterzulesen - um sowas wie elastix oder asterisk zu installieren und zu konfigurieren braucht man schon sehr tiefgreifendes Verstdnis.Eigenlich Rcksendung und -1 Punkte fr den Stil, aber derzeit konkurrenzlos (ausser online recherchieren, geht natrlich auch - aber ich lese solche Handbcher gerne abseits der Online-

Kommunikationsmöglichkeiten in Ruhe !).
