**Von Tom Bower : Gordon Brown: Prime Minister (Text Only)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gordon Brown: Prime Minister (Text Only):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.  
interesting bookVon sweet sueI bought this book to have more insight about Gordon Brown. It was interesting, if not a

bit gossipy - unfortunately not always giving a positive view of him.

**Kurzbeschreibung** The gripping inside story of Gordon Browns rise to become Prime Minister. Gordon Browns arrival at the Treasury in May 1997 was greeted with great excitement not to mention anticipation. Officials of every rank looked on expectantly to see what miracles the chancellor would work. And so, as Master of the New Era, Brown created relationships across every Whitehall department and extended his influence to every aspect of government. He brought into effect the most important budgetary changes of the past decade: the commitment to Private Finance Initiative, which altered infrastructure from the London Underground to the NHS and state schools; the management of the Inland Revenue; the increase in taxes; and the demise of Britains pension funds. In this gripping and fully updated biography, reissued to coincide with Browns assumption of Tony Blairs mantle, best-selling author Tom Bower documents the rise to power of a driven and complex politician, and exposes how the ambitions of the Labour Partys leader-in-waiting will affect the country for decades to come. **Pressestimmen** `As a psychological profile, an exploration of personal ambition and a study of political obsession driven by religious angst, this biography is gripping.' Daily Telegraph `Intensively researched but coolly critical...this remains the most thorough biography we have.' Independent `What makes this worth reading is Bower's damning indictment of Brown's main boast: his supposedly sure stewardship of the economy.' The Times `A powerful book which poses serious questions.' James Naughtie `Compulsively readable...essential reading.' Norman Lamont **Kurzbeschreibung** The gripping inside story of Gordon Browns rise to become Prime Minister.
