Courtesy of Teens Read TooVon TeensReadTooAll a girl wants to do is find the love of her life, or in this case a high school sweetheart. Fortunately for Rachel Lowenstein, she has just found the guy at her brother's bar mitzvah. He's handsome, a basketball player, and his name is Luke Christiansen. Which is the only problem she has with Luke--his last name. All Rachel hears from her grandmother and family is how she should find a respectable Jewish boy to date and marry. But crushing on Luke may not be the best choice for Rachel since he is far from being Jewish; he celebrates Christmas! So Rachel decides that she is tired of all the problems that she faces, from bad hair to having hardly any friends, and makes up her own teen commandments, which she occasionally changes, and which she hopes to break. So Rachel begins to change the way she does things. She starts acting dumb in math class, lies to her family, and tries her

best to keep Luke a secret. Besides that, Rachel also has to deal with her only best friend, Jen, who is trying to get into the popular crowd; Leah, her only other real friend who keeps on warning Rachel about her wrongdoings; and Howard, Rachel's neighbor turned enemy. Yet Rachel starts to second-guess her decisions and wonders if they are really worth all the lies and deception when the ultimate tragedy happens to her. Is Luke really the guy for her; is acting dumb in math class worth the "popular" points? Rachel ends up discovering her true self and sees that change just isn't for her. *GOY CRAZY* is sweet, tragic, and laugh-out-loud hilarious. With her first teen novel, Ms. Schorr successfully makes her main character understandable, relatable, and, above all, realistic. By the end of the novel, readers will be glad about Rachel's final decisions, yet sad that the novel is over. *GOY CRAZY* was a fantastic read that left me wanting more. I just hope there will be a follow-up to this novel. Reviewed by: Randstostipher "tallnlankyrn" Nguyen

Kurzbeschreibung Rachel Lowenstein can't help it. She's got a massive crush on a goy: Luke Christensen, the gorgeous star of the basketball team at St. Joseph's prep. But as the name implies, he's not exactly in Rachel's tribe. Rachel just knows her parents would never approve. Then Rachel's Jewish grandmother issues a stern edict--"Don't go with the goyim!"-- sealing Rachel's fate and presenting her with a serious dilemma. Everyone's got an opinion--from her annoying neighbor Howard to her newly social-climbing best friend. Should Rachel follow her heart and turn her back on her faith? Or should she heed her family's advice and try and find a nice Jewish boy? With an unforgettable cast of characters and razor-sharp wit, Melissa Schorr's debut novel is an engaging comedy about a girl's decision to go goy crazy.
