Von L. M. Lawson : Green Flash (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Flash (English Edition):

I have never sailed on a yacht, shopped in an open air market in Zihautanejo, or run with the likes of millionaires and murders but I did all that while in the clutches of Green Flash. It kept me coming back for more until, unfortunately, I finished it. The characters were very real and I warmed

up to them right away. The author is a colorful writer and makes the reader feel as if they are right there in the midst of Neal and Jessie's adventures. I recommend that you not read the back cover beforehand. Not knowing what the outcome of this adventure might be, will keep you in greater suspense. Ahoy! I mean, enjoy! I surely did.0 von 0 Kunden fanden die folgende Rezension hilfreich. Real people living a great adventureVon Ein KundeJessie and Neal lead an adventurous life, and they take you along to meet their friends and a real villain. This book has great characters, exotic settings and many interesting plot twists and turns. The depictions of sailing and cruising life are authentic; I could feel the heat in Zihuatanejo, and see the beauty of a night passage on a small boat on a big ocean. Almost as good as being there yourself.

Kurzbeschreibung Jessie and Neal Fox survive ambush and sabotage while delivering to authorities a video camera they salvage off the Mexican Riviera. Could these attacks mean the tape holds proof that a fatal accident at sea was really murder? From the tropical heat of Zihuatanejo to the grandeur of Mexico City, Green Flash will entice sailors and non-sailors alike to savor this passage into the world of boats and foreign ports.
