Von Ein KundeI liked this book much better than Nick Begich's Angels Don't Play Harps. This book is clearer, more concise, and easier to digest. It is fascinating what the black programs in the us Military have done with Tesla technology and it is scary as hell. Suggest you buy this book as well as the new Tesla books and Steiger's Alien Rapture which describes the vehicles developed using Tesla science. Tesla, the genius of geniuses who's work is still kept secret by the US government. I do highly recommend you buy this book.0 von 0 Kunden fanden die folgende Rezension hilfreich. First full blown analysis of HAARP. Von Ein KundeJerry E. Smith provides the first full-blown conspiracy analysis of the HAARP project since Nick Begich first brought the subject up in his famous book, Angels Don't Play This HAARP. HAARP, of course, stands for High-frequency Active Auroral Research Program, and it consists of an antennae array, still under construction, situated along the Copper River near Wrangell-St. Elias National Park in Alaska. It's just a research facility for topography and upper atmosphere study according to the Department of Defense. Everyone knows better, of course, and the chore has been to figure out its true purpose. Beam weaponry? Planetary defense shield? Mass mind manipulation? Weather control? Tesla technology? Smith asks all of these questions and examines the hard evidence for the plausible ones and the reasons for rumor behind the rest. The book provides a wealth of hard data, with graphics and photos, to help readers understand the reality of the facility but complements that with well- documented speculation about even the strangest possibilities. Smith follows up observations like "[Some] think it will be used by the New World Order to take over the world by projecting holographic images into the sky while beaming thoughts directly into our heads, telling us to accept the 'new' god of their design" with a brief but careful history of the MKULTRA program and mind control technologies like RHIC-EDOM and how they might be applied to HAARP. UFOs enter the discussion, of course, and by book's end Smith examines the roots of UFO Illuminati control in freemasonry and an ancient plot to establish a theocratic world king. Small wonder that author Smith has known Steamshoveler Jim Keith since high school, and even worked in the zine world as part of Keith's old Dharma Combat. HAARP: The Ultimate Weapon of the Conspiracy offers quite a tour de force, but readers need not follow the conspiratorializing to appreciate the science presented as well as the basic facts about HAARP.0 von 0 Kunden fanden die folgende Rezension hilfreich. Meteorologische Kriegsführung Von Dipl Ing R. HhneDie Beschreibung der HAARP-Anlage datiert aus der Frhzeit dieser Sendeeinrichtung. Mittlerweile ist sie ber eine Dekade in Betrieb und der Verdacht besteht, da sie geeignet ist unser Klima zu beeinflussen wenn nicht sogar Erdbeben auszulsen. Es klingt wie Science Fiction, aber es knnte leider auch Realitt sein. Haarp: The Ultimate Weapon of the Conspiracy (Mind-Control Conspiracy)
