Von Chris Davis, Aaron Philipp, David Cowen : Hacking Exposed Computer Forensics, Second Edition: Computer Forensics Secrets Solutions before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hacking Exposed Computer Forensics, Second Edition: Computer Forensics Secrets Solutions:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Eher eine AnleitungVon donvitoDas Buch stellt einer eine Anleitung fr verschiedene Forensic-Tools dar. Auf die dahinterliegende Theorie wird so gut wie garnicht eingegangen. Fr Studenten, die eine eher theoretische Vorlesung besuchen ist es daher eher wenig geeignet. Es wird z.B. nicht darauf eingegangen, wie man manuell Partitionsdaten

aus dem MBR auslesen kann. Es steht nur drin, wie man das mit unterschiedlichen Tools machen kann.

Kurzbeschreibung"Provides the right mix of practical how-to knowledge in a straightforward, informative fashion that ties it all the complex pieces together with real-world case studies. ...Delivers the most valuable insight on the market. The authors cut to the chase of what people must understand to effectively perform computer forensic investigations." --Brian H. Karney, COO, AccessData Corporation The latest strategies for investigating cyber-crime Identify and investigate computer criminals of all stripes with help from this fully updated, real-world resource. Hacking Exposed Computer Forensics, Second Edition explains how to construct a high-tech forensic lab, collect prosecutable evidence, discover e-mail and system file clues, track wireless activity, and recover obscured documents. Learn how to re-create an attacker's footsteps, communicate with counsel, prepare court-ready reports, and work through legal and organizational challenges. Case studies straight from today's headlines cover IP theft, mortgage fraud, employee misconduct, securities fraud, embezzlement, organized crime, and consumer fraud cases. Effectively uncover, capture, and prepare evidence for investigation
