**Von Alex Crawford, Phil H Listermann, Phil H Listermann : Hawker Fury (Part 1): Volume 10 (Allied Wings)**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Hawker Fury (Part 1):  
Volume 10 (Allied Wings):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. nicht  
unbedingt ein must have, aber ....Von Matthias DorstDas Buch/Heft ist okay, aber jetzt nicht unbedingt ein  
Standardwerk. Zu Abrundung der Sammlung brauchbar. Unterlagen ber die Hawker Doppeldecker sind rar, hier findet  
man ein paar gute Photos und profiles. Wer sich ernsthaft mit der Hawker Fury auseinandersetzen will, der muss das

"Mushroom"-Buch kaufen, dieses Heft ist dann ein nettes addon, aber auch nicht mehr

KurzbeschreibungThe Hawker Fury was the first RAFs fighter able to fly at a speed exceeding 200 mph in lever flight. This part one narrates the development and production of the Fury and the career of the Fury Mk.I in the RAF. This part includes also the full story of the Fury in South Africa, which fought against the Italians in East Africa in 1940-1941. The SAAF Furies were eventually withdrawn from use in 1943. New material has become available from South Africa giving today the most complete story on the Furies in the SAAF. This issue is illustrated with over 40 photos and 6 color profiles giving a new reference for the historians and modelers alike.
