A true discovery - highly recommendableVon Castall1I bought my Kindle and this was the first book I bought (apparently this book is currently only available in the Kindle edition).I must say I was totally fascinated by the story. It was easy, no-nonsense reading, so time just flew.The story of Master Ching is truly incredible. It almost seems impossible, but it's all true. He has touched so many people, inspiring and helping them while still maintaining his humbleness.I'm very happy that I bought this book, and look forward to new books from this author.
