BrilliantVon CPE BachThe author delivers a very insightful description of the three different leaders with diverging cultural and academic backgrounds. Their decisions taken in the (otherwise) well-documented Waterloo campaign become clear once the reader has got a basic understanding on the different experiences of the commanders gained

before the battle. Great reading, not only for history freaks!

**Kurzbeschreibung** The three commanders-in-chief during the Waterloo campaign rank among the most famous soldiers in history. Rarely have three such remarkable men as Napoleon, Wellington and Blücher confronted each other on a field of battle or had such an impact on the history of their time. Andrew Uffindell, in this readable and meticulously researched three-part biography, gives vivid accounts of their parallel lives and extraordinary careers. The dramatic contrasts that emerge between their backgrounds, personalities and methods of command offer a fascinating insight into the secrets of leadership and into the warfare of the Napoleonic era.
