Von Brian R. Nelson : Western Political Thought: From Socrates to the Age of Ideology before purchasing it in order to gauge whether or not it would be worth my time, and all praised Western Political Thought: From Socrates to the Age of Ideology:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. One of the best social science books I've read Von Joseph A. Lubin I first read the book in POLSC 201: Intro to Political Theory. I found the book to be well written and easy to understand. I kept the book after the course was over and have since referred back to this book for many other classes. I recommend this book to all Liberal Arts and Social Science majors.

Kurzbeschreibung Written simply and directly but without sacrificing intellectual depth this widely acclaimed text explores the preeminent theorists of Western political thought from the pre-Socratics to the contemporary era. The author provides an in-depth analysis of a limited number of major thinkers, which allows for a richly detailed examination of each philosopher in historical context. Western Political Thought, Second Edition, presents the fundamental terms, ideas, and dilemmas of Western political philosophy in a straightforward, easy-to-understand manner. It organizes the theorists historically, explains basic concepts in depth, and draws out and analyzes the implications of various political theories. Moreover, this cohesive volume employs an overarching theme, examining each thinker in terms of the changing relationships of ethics and politics in Western political philosophy.

Synopsis For courses in Western Political Theory and/or Political Theory. Written simply and directly -- but without sacrificing intellectual depth -- this text presents the basic terms, ideas, and dilemmas of Western political thought through an in-depth analysis of a limited number of major thinkers -- from the pre-Socratics to the contemporary era. It views the thinkers in historical context and examines them in terms of the changing relationships of ethics and politics in Western political philosophy.
