KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A wonderful book for beginnersVon CustomerIt's light and easy reading. I really liked the way how the book was written. You can feel that the author really likes her teachings. There was no "do this" and "do that" without an Explanation why but a good start into what can be done on pagan Holidays and what they're about. It's a wonderful light way to the Sabbats and Esbats. You have short Explanations why we celebrate a certain Holiday. A few additions when to celebrate in different countries and a few Family activities. I liked the parts with the different symbols, herbs, ... for a specific Sabbat. And personally I really liked the recipes and am sure to try out a few. They look easy to cook, even when you're used to different measuring. There is even more Information on Esbats than I know from other books. And the Names of the Moon and their meaning is a nice Addition. It's really not easy to find good books on the matter, but I found this one is a very good Guideline for beginners.
