KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Sehr gemischter EindruckVon tiroDas Buch hilft wohl bei den ersten Schritten der Appentwicklung fr Windows 8.1. Aber das wars dann auch. Es bleibt (nicht nur) bei der WinJS Bibliothek sehr an der Oberflche. Wer gar so etwas wie eine Referenz erwartet, ist im Netz besser aufgehoben. Zudem behandelt das Buch ausschließlich Desktop Apps, kein Wort ber Windows Phone 8.1 und schon gar nicht ber Universal Apps (WUA). Komplett ignoriert wird das Thema Styleguide, auch hier hilft nur die Recherche in Microsoft's DevNet. Sehr schade um das vergebene Potenzial, aber ich

hab durch Probieren mit Visual Studio Community in 4 Stunden 4 mal mehr gelernt als nach 8 Stunden lesen.
