KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Mir eine sehr gute HilfeVon Hermann LeopoldWie die Jungfrau zum Kinde kam ich zu der Aufgabe,eine bestehende Website mit WordPress nachzubilden. Dass es mir gelungen ist, habe ich diesem Buch zu verdanken.Der Autor Brian Bondari vermittelt den Inhalt mit einem lockeren, fast freundschaftlichen Ton, ohne dass es ins unsachliche abgleitet. Die Mglichkeiten, WordPress mit Plugins zu erweitern werden anhand von Beispielen besprochen, welche nicht zu umfangreich sind, und doch einen guten Einblick in die Funktionsweise vermitteln; auch werden Tipps genannt, wie man ermitteln kann, welche "Hooks" es gibt und wofr diese stehen - denn die Zahl dieser "Hooks" ist riesig und das Buch eher dnn.Und das ist auch der einzige Kritikpunkt: ber eine bersicht der wichtigsten "Hooks" wre ich sehr erfreut

gewesen...PS: Ein "Hook" ist grob gesagt eine Stelle, an der WordPress erweitert werden kann.
